### ***COPYRIGHT***

In 1976, the Federal Government pass a law making it illegal to copy materials protected by copyright, including professional photography. Your portraits are made by the finest craftsmen in the industry. Our studio invests heavily in training, education and equipment to provide you with the highest quality photography found anywhere - high quality that cannot be duplicated or copied without a severe loss of sharpness, color and clarity.

Since such a loss would reflect poorly on the reputation of our work, Creative Images Portrait Studio has reserved the copyright on each portrait we create. That means copying either your previews or finished portraits by ANY means, including photocopier, digital scanning or copy photography is prohibited by law. Creative Images Portrait Studio reserves the right to pursue legal actions against any person who violates this copyright.

While we have made some very limited exceptions in the past, most often we cannot sign over the copyright to any third party such as a copy center, for reproductions for invitations or other additional services. And because of these strict copyright laws, they may not reproduce our work under penalty of law. We request that you do not ask for a copy right release as we do not like to deny this request.

We sincerely appreciate your understanding and cooperation in helping us maintain the highest levels of quality and integrity you have come to expect from Creative Images Portrait Studio.
